The Price & Lee Company

NUMERICAL DIRECTORY ITS PRACTICAL USE IS TO GIVE

- Information—as to street descriptions and their location on city map.
- Information—as to the location by number of intersecting streets and their relation to other numbers.
- Information—as to the name of every householder at any given street number.
- Information—as to the name of every place of business and its nature at any given street number.
- Information—as to the location of telephones (*) by street
- Information—as to the character of any street or district.
- Information—as to the number of families living at any number and who they are.
- Information—as to the correct spelling of names when addresses are known.
- Information—as to sections capable of producing the greatest amount of business by personal solicitation or "direct mail".

—Finally—

It takes the "Who is it?" out of your neighborhood and adds another link to your chain of friendliness

BLOOMFIELD NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

Alndicates telephone at this number.

"Right even)" after street description indicates even numbers on right side

The symbol \odot following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information
